ABOUT US

Silva Vernici a member of RAR HOLDING was born in the late 50's, in a workshop at Bologna (Italy), founded by the Macciantelli Brothers and Mr. Fantoni.

The growing demand of the market, led the company to move into an industrial warehouse in Reno which is best suited to accommodate the new machinery and production itself.

In early 60's, Macciantelli Brothers took full ownership & management of the company by liquidating the 3rd partner Mr. Fantoni.

The company has a strong development and leading products such as nitro and polyesters, highly demanded in paint industry.

Late 60's was the development date of polyurethane coatings, and being sold in Italy where the areas were covered by different representatives.

In the 90's, the children of Macciantelli Brothers took over the company management. At the time, the water-based products development was taking place, and at the same time the start of sales for the foreign market, European and International.

Silva Vernici has developed its distribution in Portugal, Spain, Hungary, Poland, Serbia, Slovenia, Macedonia, Greece, Albania and Palestine and a few years ago in Bulgaria, Chicago and UAE, KSA, Qatar, Oman, Iraq, Lebanon.

During these years, there have been toll manufacturing for important Italian companies and paint production for major companies in the sector of frames and furniture.

VISION

- To be one of the unique diversified company in Europe and international market.
- To maintain quality of work, performance, reputation and have the right team to achieve our goals.
- To be a total finishes solution provider by creating a professional managerial structure which enables us to proceed, produce and deliver top notch product.
- To provide continuous effort to partner with the best Technological Laboratories to improve Products Quality and Efficiency.
- To exceed others limits.
- To build long term relationship with global partners and customers.

MISSION

Silva Vernici aims to develop innovative and cost effective coatings system through the allocation of large funds on research and development projects. We differentiate ourselves by adding value through Creatiion, Development, Experience and Service.

Silva specializes in the manufacturing and marketing of Wood Coatings.

Silva commits itself to Green Solutions through the creation of eco-friendly products that would have less impact on the environment.

Silva is a learning organization that is focused on ensuring a clear succession pool to all its employees and offers exhaustive trainings on numerous levels.

Most importantly, Silva is a customer oriented firm that not only works hard to satisfy customer needs but expands to proactively listens to its customers and builds its strategy accordingly.

PRODUCTION

Silva Vernici has now established factories in 9 countries in Europe, the Middle East and African regions. Its annual production capacity has been exponentially increasing with the aggressive expansion plan. Silva senior production team has set a five years renovation plan of all factories to become fully automated from raw material warehouse to finished goods warehouse going through the already automated production and packaging facility. All of this has been developed while carefully looking at safety and environmental considerations.

Silva Vernici has already been granted numerous production and process certificates notably ISO standards. Its automated tinting system has also allowed to produce more than 150,000 colors.

Silva Vernici production team is composed of 18 different nationalities and is centralized under the supervision of a Chief Production Executive that is located in Italy who ensures that the processes and procedures are unified and controlled globally. Silva plants produce more than 500 different items and can customize any product according to customer needs.

Keeping one eye on consistency and another on flexibility our IT infrastructure is able to support a large operations of both mass production and small customized orders. Our ultimate strategy is to be able to vertically integrate up to 70% of raw material production while currently we have been able to reach 60% through the production of our own Resins and solvents.

PRODUCT RANGE

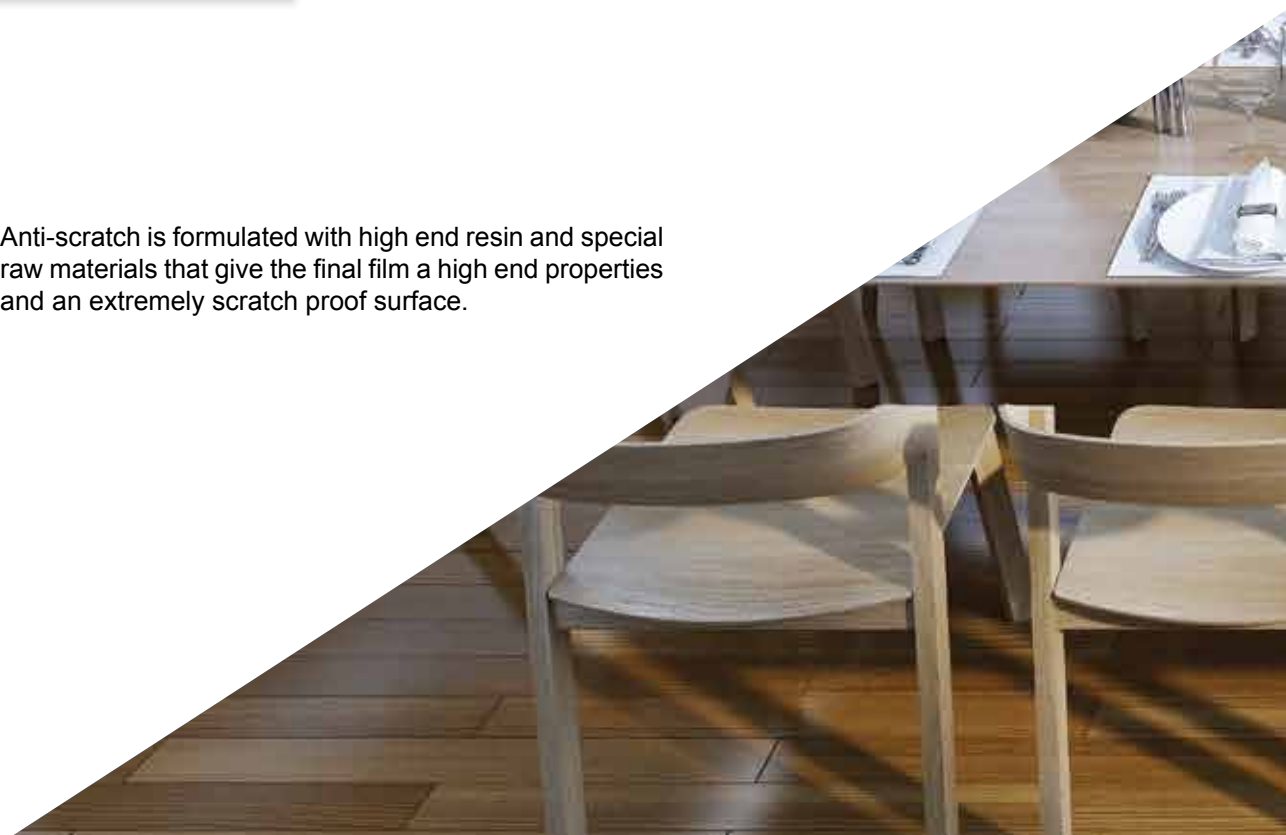

Wood Finishes:

- UV by Roller / UV Dual Cure / UV One pack by Spray / UV by Curtain Coater
- Glass Paints (Solvent Base / Water Base)
- Polyurethane (Solvent base / Water base)
- Polyester (Horizontal / Vertical)
- Water Borne for Interior / Exterior
- Special Effects for Wood
(Crackle, Marble, Hammer, Sparkle Pearl & etc.)
- Wood Preservatives
- Fire Retardant Polyurethane
- Polyacrylic / Polyurethane for Parquet
- LEED Certified Low VOC Polyurethane
- Water base Liquid Masking Film
- Heat - Resistant Polyurethane Coating
- Anti - Bacterial Polyurethane
- Wood Casting Epoxy
- Anti - Scratch Coatings
- Solvents / Thinners
- Wood Fillers
- Nitrocellulose
- Wood Stains
- Polyacrylic
- Acrylic

ANTI SCRATCH

Anti-scratch is formulated with high end resin and special raw materials that give the final film a high end properties and an extremely scratch proof surface.

HEAT - RESISTANT

Heat - Resistant is a two component scratch proof clear polyurethane topcoat with high mechanical resistance. It exhibits fast drying, good transparency and very good leveling. It is highly recommended in Coffee shops and Restaurants table tops.

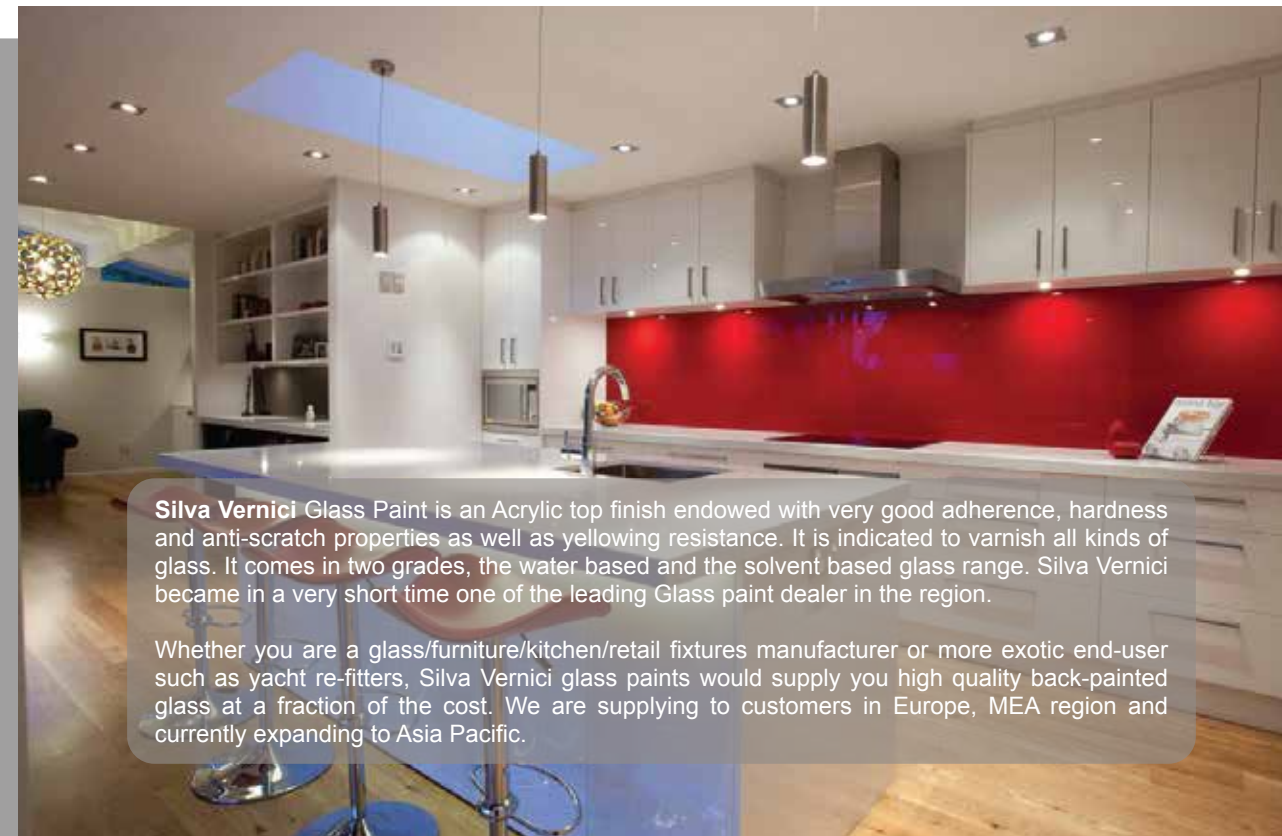

// LIQUID MASKING FILM

Liquid Masking Film is a clear, colorless, flexible waterborne coating for the temporary protection of coated surfaces from mechanical damages during handing, transportation of installation.

SPECIAL EFFECTS

Silva offers a wide range of special effects paints that adds luxury and style to one's interior and exterior space.

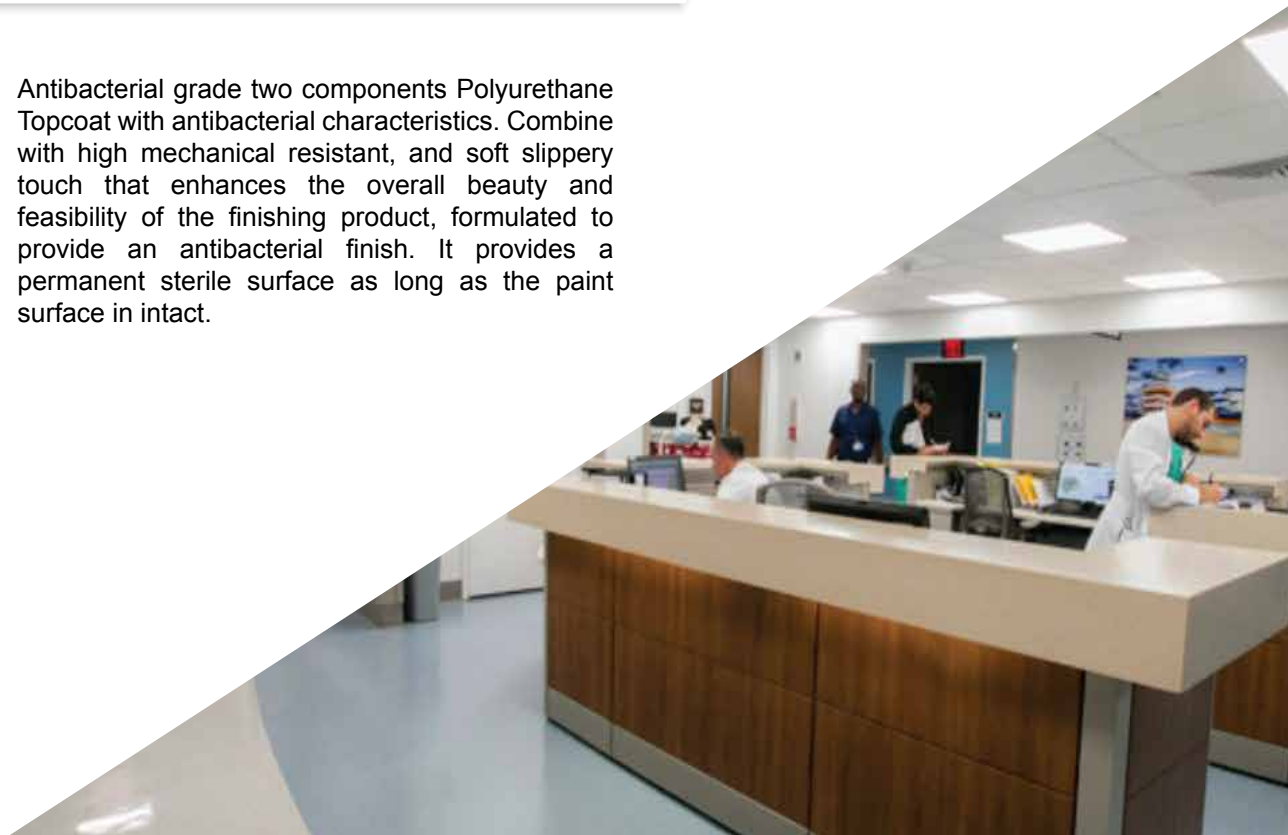

Silva Vernici Glass Paint is an Acrylic top finish endowed with very good adherence, hardness and anti-scratch properties as well as yellowing resistance. It is indicated to varnish all kinds of glass. It comes in two grades, the water based and the solvent based glass range. Silva Vernici became in a very short time one of the leading Glass paint dealer in the region.

Whether you are a glass/furniture/kitchen/retail fixtures manufacturer or more exotic end-user such as yacht re-fitters, Silva Vernici glass paints would supply you high quality back-painted glass at a fraction of the cost. We are supplying to customers in Europe, MEA region and currently expanding to Asia Pacific.

ANTI-BACTERIAL WOOD FINISHES

Antibacterial grade two components Polyurethane Topcoat with antibacterial characteristics. Combine with high mechanical resistant, and soft slippery touch that enhances the overall beauty and feasibility of the finishing product, formulated to provide an antibacterial finish. It provides a permanent sterile surface as long as the paint surface is intact.

PARQUET PAINTS

Silva Vernici range of Parquet is decided to protect the timber used for such floorings against deterioration and scratches while maintaining a reasonable level of elasticity.

SOLUTIONS

Silva Vernici offers two different polyurethane solutions divided into water based, a single pack product and solvent based, a two pack system. **Silva Vernici** products are made to answer the various customer's requirements, from industrial through professional to Do-It-Yourself.

- WATER BASED COATINGS
- SOLVENT BASED COATINGS

LEED CERTIFICATION

Silva Vernici commits itself to Green Solutions by creating eco-friendly range of products in order to protect our future generations.

LEED CERTIFIED

PROMOTING INDOOR AIR QUALITY & HEALTHY ENVIRONMENTS

Meeting & topping the toughest environmental regulations.

LEED Credit EQ c4.2

The Volatile Organic Compound (VOC) level of the following products is less than 25g per Liter for the water based and 125g per Liter for the solvent based in addition to reduced amount of water and exempt solvent, both as per rule 1113 of architectural coating of SCAQMD of the State of California - USA.

Water based one pack products: LEED XXXX range.
Solvent based two packs products: LEED XXXX.

Consult with a SILVA Vernici Representative to ensure the most appropriate product selections for your next LEED®-registered project or follow our TDS for application methods and more details.

FIRE RETARDANT

Clear PU Topcoat endowed with very good coverage, plasticity, hardness, softness. It is used for furniture, furnishing components, cabinet doors, windows, etc... It can be used in tunnel varnishing cycle with forced air and in environment conditions. This product has a property of protecting the wood againsts fire that means the capacity of the varnish film to delay the propagation of flames in case of fire and doesn't concern the protection of the substratum from fire effects.

FIRE RETARDANT PAINT

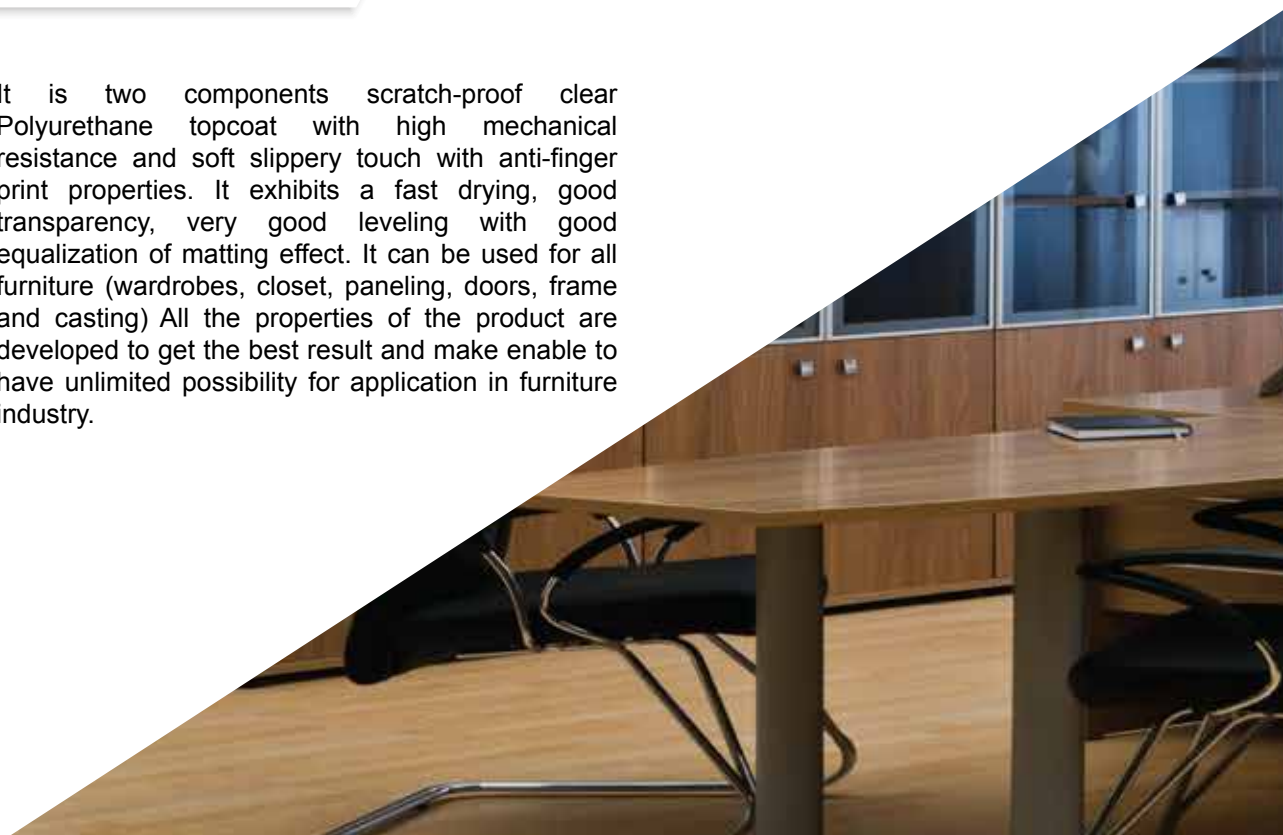

Certified Product

Silva Vernici paints bring a true high performance fire barrier to a wide variety of materials.

ANTI-FINGERPRINT

It is two components scratch-proof clear Polyurethane topcoat with high mechanical resistance and soft slippery touch with anti-finger print properties. It exhibits a fast drying, good transparency, very good leveling with good equalization of matting effect. It can be used for all furniture (wardrobes, closet, paneling, doors, frame and casting) All the properties of the product are developed to get the best result and make enable to have unlimited possibility for application in furniture industry.

1K HIGH GLOSS SCRATCH PROOF

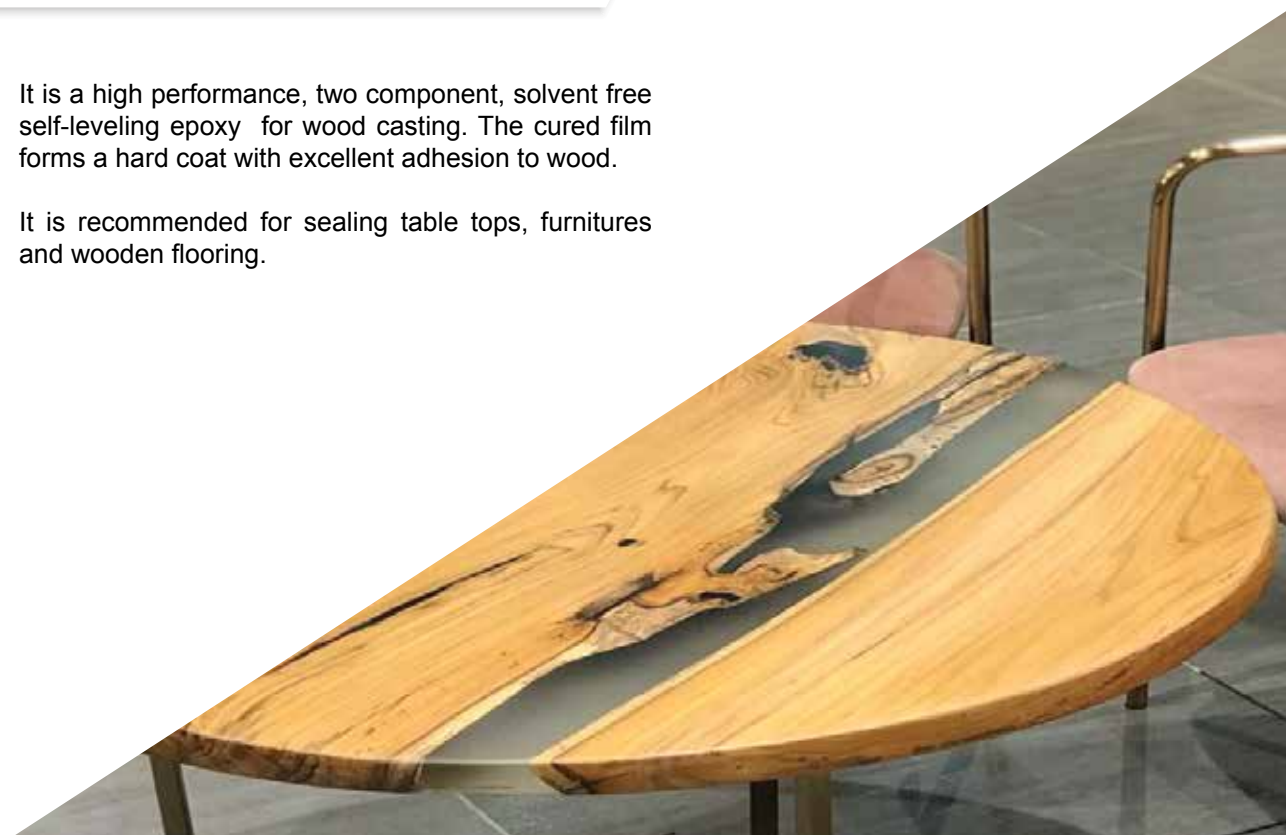

Clear polyurethane one component glossy product, endowed with excellent covering properties and optimum brilliant finish. Due to its high solid content, it provides a U.V. resistance to weathering and some limited acid spillage. Highly recommended for furniture such as beds, cabinets, chairs, sofas, doors and frames turned pieces and likes. It has a very high scratch proof properties.

WOOD CASTING EPOXY RESIN

It is a high performance, two component, solvent free self-leveling epoxy for wood casting. The cured film forms a hard coat with excellent adhesion to wood.

It is recommended for sealing table tops, furnitures and wooden flooring.

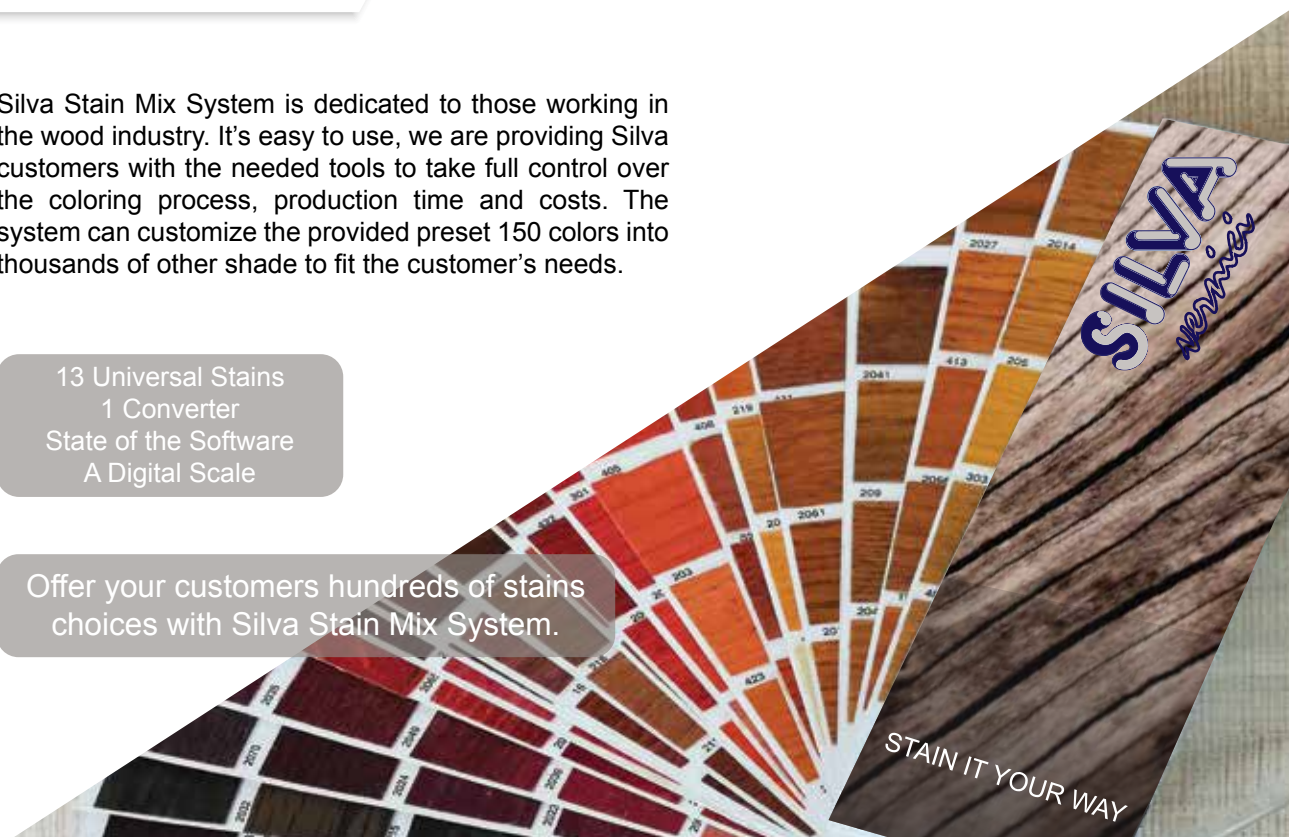

STAIN MIX SYSTEM

Silva Stain Mix System is dedicated to those working in the wood industry. It's easy to use, we are providing Silva customers with the needed tools to take full control over the coloring process, production time and costs. The system can customize the provided preset 150 colors into thousands of other shade to fit the customer's needs.

13 Universal Stains
1 Converter
State of the Software
A Digital Scale

Offer your customers hundreds of stains choices with Silva Stain Mix System.

WATERBORNE COATINGS

INTERIOR

1 Pack PU Waterborne for Interior Wood
2 Pack PU Waterborne for Interior Wood
Multicoat PU Waterborne for Interior Wood

Coatings System for Exterior Wood

Guaranteeing the coatings system's quality for its outdoor life, wood protection & production quality control.

Polyester Coatings

SILVA Vernici offers extensive range of transparent and pigmented paraffinated polyester coatings for use as base coats or as base/top coats with excellent chemical / physical resistance.

- Extra clear odorless polyester
- Super white / pigmented polyesters

Polyurethane Coatings

- Transparent Polyurethane
- White / pigmented Polyurethane

Acrylic Coatings

- Transparent Acrylic
- White / pigmented Acrylic

Acrylic UV Resistant Coatings

- Transparent Acrylic
- White / pigmented Acrylic
